

# DISCUSSION QUESTIONS

## **SUZETTE WALDEN COLE**

- In what ways do you think that chapter leaders and Council leaders can work to continue to challenge the general membership to be agents of change?
- What would need to take place in order for fraternity and sorority members to be seen as leaders on the issues of sexual and intimate partner violence?
- What steps need to be taken in an effort to ensure our members and guests are just as safe during our “official” events versus the more informal gatherings that happen?
- How do we work to ensure that overnight, away events like formals and roadtrip experiences do not lead to harmful situations?
- In what ways can our collective membership be more proactive in its effort to support survivors within our community, and campus-at-large?
